

Target

Start actively driving your own learning forward. Take the initiative both in class & at home.

This is a target that you need to work on in class and at home. Speak with your teacher if you need some specific guidance, but essentially it is over to you! Identify the areas that you need to work on and take the initiative to start working on these further at home. The internet has a wealth of resources if you Google it, alternatively, speak to your teacher for some specific recommendations for you. The websites below are great for improving your vocabulary and practicing the different tenses that you've been learning in class.

Suggested websites

Linguascope

The school has a subscription for www.linguascope.com. Please ask your teacher for the log in details. Select the language and level of difficulty to best suit you.

Websites to practise the tenses

www.conjugemos.com has lots of great worksheets, puzzles and interactive games. You don't need to register for this. Just select play the computer each time when using the games.

www.languagesonline.org.uk looks like a very basic website, but it actually offers a huge variety of controlled grammar practice activities that will help you master MFL Grammar. Look carefully through the list, select the correct language and grammar point and complete the linked activities.

Duolingo

www.duolingo.com is free of charge and has loads of activities in many different languages.
